

The eBusiness Solution wing of Usha Martin Technologies bagged an onsite deployment contract for HYBRIS in the UK region on May 2014 & deployed more than 10 resources. The consultants are placed onsite on a long term contract & will mainly be working on HYBRIS development. At present UMT is working with three different customer in this particular region. Prior to this UMT bagged an Offshore project from UK and is running successfully from February 2014. UMT is already present in the UK with its Telecom & Contact Center offerings and now will be joined by its eBusiness offerings as well.
